PERSONAL PROJECTS

Hotel Booking System

- Developed a Hotel Booking System with Spring Boot backend and interactive frontend using HTML, CSS, JavaScript, and jQuery. Integrated MySQL database with JWT authentication for secure user management, real-time booking capabilities, and role-based access controls . Implemented a payment gateway for online transactions.

Art & Craft Gallery Platform (Frontend & Backend)

- The Art & Craft Idea Gallery is a web-based platform where users can share and explore creative DIY craft ideas and art projects with a React.js frontend and a Node.js & Express backend. The platform allows users to upload their own craft projects, view crafts categorized by different age groups suitable for kids, and explore a variety of creative ideas shared by the community

Daily Journal App

- Developed a lightweight mobile application using React Native that allows users to record daily thoughts, experiences, and moods. Features include creating, editing, and viewing diary entries, tracking mood patterns, and a calendar view for easy navigation of past entries.
